Setting Up a Tutorial Program (25:3)

Thank You!

—CAMERIQUE

Dear Teacher,

As you catch your breath and look back over the school year, you will weigh the good and the bad in your curriculum. We hope *Weekly Reader* weighs heavily on the good side.

We wanted to support your program by selecting interesting news topics, exciting photos, and pertinent facts, and by presenting them in ways that would catch the interest of your pupils. Your comments assure us that we have succeeded.

Thank you for all your letters. We are glad you let us know how you felt about the things we did. Your comments are one of the ways in which we visit classes all over the country.

We were deluged with *Earth Patrol* projects. We regret that we could not answer each one individually. They confirmed our faith in the concern and the ingenuity of teachers. How can the environment fail to improve?

Thank you for helping to make this year worthwhile. Have a good summer.

Sincerely,

Pearl H. Watts

Editor, *My Weekly Reader 2*
